	In-person	1 day	\$4,999 + travel expenses	Unlimited

### Standard

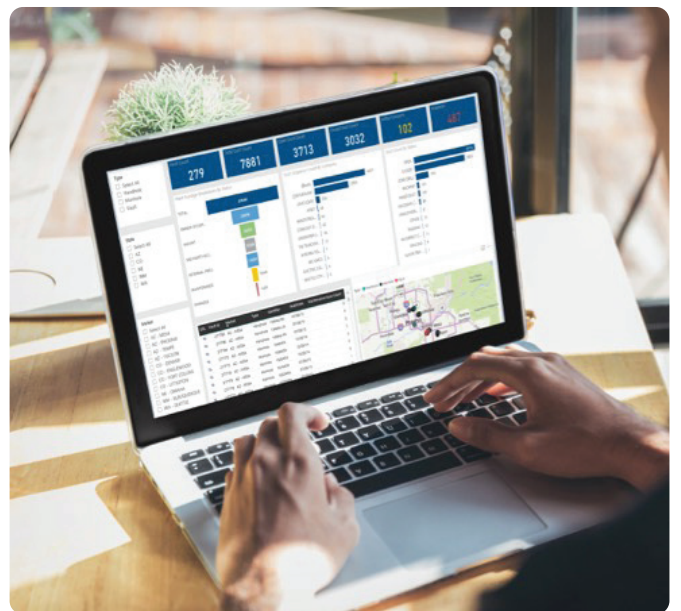

What is included?

#### Learn how to:

- Navigate Alden One®
- Customize your home screen
- Perform an interactive map search
- Use the grid
- Save custom searches

#### Plus:

- Creating and submitting a conversation
- Adding, editing and deleting conversation assets
- Using street view from mapping features
- Customizing the search grid

## Custom

### What is included?

We train your staff on company-specific processes to follow for each type of request—as the owner or attacher. By taking a deep dive into your specific activities, the company processes involved, and the documents required, we can design training to help you succeed.

Custom training can be delivered online or onsite in half- or full-day programs with unlimited attendees.

### Learn how to:

- Perform more complex searches— like custom attributes (poles and/or conversations)—and how to save results to your home page.
- Optimize workflow processes for your internal groups and external stakeholders
- Improve processes for the companies that you do business with

### Plus, learn about company-specific scenarios, including:

- Permit to attach (overhead/wireline)
- Small Cell/DAS permit to attach
- Transfer notice
- Overlash notification

### Also, determine where you fit into this process as:

- an asset owner
- an attacher
- an engineer
- a contractor

### Additional features covered in custom training include:

- Reporting
- Export capabilities
- Sharing pole data
- Changing conversation status or assignment (single or in bulk)
- Customizing search filters, colors and more
- Activity timers, such as contractual and FCC-guided timeline
- Utilizing the history to troubleshoot
- Activity parent-child relationships
- Make data-driven decisions from dashboards
- How to submit support tickets via help desk

**Single Point of Contact Support is available to your team after the training is complete.**

Earn professional development credits while learning what you need to succeed.
